Lola Belle Holmes

Subject

"Why I Became a Communist for the F.B.I."

FOLLOWED BY A QUESTION AND ANSWER PERIOD

Lola Holmes, a negro, devoted seven years of her life to working within the Communist Party for the F.B.I. While in the Communist Party, Miss Holmes carried out Moscow orders to gain control of the "civil rights" movement and to use it as the torch to light a fire of revolution in America.

Her energy and ability quickly propelled her into top leadership positions in the Party where she served as a national officer for the Negro Commission of the Communist Party. Lola Holmes left the Party in 1963 to testify before the Subversive Activities Control Board against Claude Lightfoot, Chairman of the Communist Party in Illinois.

Learn why this patriotic woman, who has already given seven years of her life to exposing communism for the F.B.I. is now working night and day warning her fellow Americans of the holocaust that awaits them if they do not learn of communist plans for victory in America through civil turmoil.

Get Whitey

Learn the Truth About Civil Turmoil from Lola Holmes, a former FBI agent who specialized in creating it while serving as a counterspy inside the Communist Party.

Every American concerned about his future and the kind of country in which his children will live must understand what is behind the civil turmoil that openly threatens "a hundred Watts" this coming summer.

Burn Baby Burn

The fire next time is the rallying cry of many of the leaders of the so-called "civil rights" movement. The fire started in Harlem in 1964, spread to Watts in 1965 and a comedian-civil rights leader promises it will explode into "a hundred Watts" in the not too distant future.

CLAUDE LIGHTFOOT

One of the behind the scenes torch bearers is Claude Lightfoot. The F.B.I. had Lola Holmes testify at a government hearing in 1963 against Lightfoot, a vice president of the Communist Party, who is working to create hatred by exploiting racial tensions. Miss Holmes reveals that these criminals are exploiting millions of well-meaning but uninformed Americans in the "civil rights movement."

BAYARD RUSTIN

In her speech, Lola Holmes describes her role in creating the famous March on Washington in 1963 and the key part played by the Communists in its inception. The individual put in charge of organizing the March was Bayard Rustin who has a long record of Communist activities.

Washington march

Leadership for the March on Washington was put into the experienced hands of A. Phillip Randolph and Bayard Rustin. Randolph, a former Socialist Party Candidate for political office, has been a member of 20 Communist front organizations according to official government records. Rustin was an organizer for the Young Communist League, served 26 months in a Federal penitentiary for draft evasion, attended the Communist Party's national convention in 1958 while he was Martin Luther King's secretary and pleaded guilty to a homo sexuality charge in Pasadena, California. Major Pedro Diaz Lanz

Subject

Civil Turmoil From Havana To Watts

FORMER COMMANDER-IN-CHIEF
OF CASTRO'S AIR FORCE

Major Lanz is one of the most extraordinary men you will ever have the pleasure of hearing. He was one of the non-Communists who helped Castro build Communism in Cuba and participated in Castro's demonstrations shouting the battle cry of the Cuban Revolution, "We Shall Overcome." When he realized his mistake, Lanz resigned as Commander-in-Chief of Castro's Air Force and denounced Castro's revolution as Communist.

With his wife and children, Major Lanz avoided Castro's firing squad by escaping to the United States in a small sailboat. Once in the U.S., he tried to warn the government and the American people of the true nature of the Castro regime but the American mass media had sold Castro to the public as the George Washington of Cuba. Major Lanz was continuously denounced and vilified by the American press and government as an extremist malcontent after he testified before the Senate Internal Security Subcommittee revealing Castro's Communism.

Every concerned citizen owes it to himself to learn from Major Lanz the same tactics that were so eminently successful in Cuba are being repeated by the Communists in America today.

"I have said very clearly that we are not Communists. Our revolution is a humanistic one."
Fidel Castro

There are no more Communists in the Civil Rights movement than there are Eskimos in Florida.
Martin Luther King

History repeats itself. Communists always hide their true identity behind a cloak of humanitarianism while seizing power. FBI Director J. Edgar Hoover has stated, "Communism must be built with non-Communist hands." Castro vehemently denied any Communist influence in his revolution so he could use non-Communist students, clergy and workers to unknowingly build the sugar cane curtain. Ninety percent of Castro's revolutionary army were not Communists or Communist sympathizers according to Major Lanz.

History again repeats itself. King need not stalk the swamps of Florida searching for igloos. He need look no further than his own staff. Eskimo Bayard Rustin is a close advisor to King and served as his personal secretary. Eskimo Rustin was a paid organizer for the Young Communist League and attended the national convention of the Communist Party while in King's employ in 1957. Another Eskimo, Hunter Pitts O'Dell, has worked in the top administrative post of King's organization. When the newspapers called attention to the fact that O'Dell was the Communist Party's organizer for New Orleans, King quickly transferred O'Dell to another city. Eskimo Carl Braden, identified by an undercover FBI agent as the Communist Party's organizer for the South, has written King's publicity releases. Identified Eskimo James Dombrowski has helped finance King, who is sometimes referred to as "The King of the Eskimos."

Major Pedro Diaz Lanz is shown here with Castro while serving as Commander-in-Chief of Castro's Air Force. As always, the Communists hid their true aims behind a barrage of promises and humanitarian cliches which can always be counted on to fool American "liberals," political opportunists, and "woolly minded do-gooders." Unfortunately, the American public has a short memory and does not hold the mass media or the government accountable for their past mistakes of promoting Castro, Ho Chi Minh, Ahmed Ben Bella, Sukarno, Mao Tse-tung, and Kwame Nkrumah as great heroes and not Communists.

HAVANA TO WATTS...

Again, history repeats itself. Mobs in the street using civil turmoil to seize power is an old Communist tactic that has been used in dozens of countries. The same tactics are used over and over again, because in each case the apathetic people do not look behind the humanitarian mask. Shown here leading an anti-American parade of 14,000 in Berkeley, California, is Robert Scheer of the Fair Play for Cuba Committee; Mike Meyerson who was named an honorary nephew by Ho Chi Minh during a recent visit to North Viet Nam; Alex Hoffman, described by the California Senate Subcommittee on Un-American Activities as a Marxist; and Beverly Axelrod, prominent in Communist Party activities in New York and California, who has recently visited the Orient to meet with Viet Cong representatives.

"It can't happen here," yawned the Cuban people as Castro filled the streets with any army of gullible idealists, thrill seekers and opportunists, manipulated from behind the scenes by a handful of well trained, hard-core Communists. Major Lanz was one of those duped by the Communists into promoting and participating in civil disobedience and civil turmoil, all in the name of civil rights, fighting poverty, and land reform. In yet another country, Communism is built with non-Communist hands.

Final victory for the NLF? What leaders told Burchett

In a sleep at Wellington, New Zealand, Oct. 20, President Johnson called upon North Vietnam to "give up a war he said it cannot win." The main military enemy of the U.S., of course, is not North Vietnam, but the National Liberation Front forces of South Vietnam. Guardian staff correspondent Wilfred Burchett, interviewing NLF President Nguyen Huu Tho in jungle headquarters in South Vietnam, discussed with him the question raised by Johnson. Burchett's report follows.

By Wilfred Burchett

LIBERATED AREA, SOUTH VIETNAM

BUT THE QUESTION about whether anyone can win the Vietnam war to President Nguyen Huu Tho of the NLF in the following terms: "Some observers believe that neither the Americans nor the NLF can win this war. What do you think?" His reply in part was as follows:

"We recognize that the American military and economic potential is the most powerful in the Western world. But on our side we have the irrefutable force of people's war."

"We believe that the strength of an army at time of war is composed of a great number of factors, of which the determinant ones are the political and moral ones. We have absolute supremacy over the Americans on the political and moral front. Our entire people wage this war, never retreating before any difficulty or sacrifice, firmly resolved never to lay down arms until we have achieved the aim of our struggle. We are stronger than the Americans in other funda-

mental aspects of the struggle, such as our strategic position, the terrain areas in conduct of the war. Our political forces are also stronger than theirs. These are factors which decide the outcome on the battlefield. Although they are strong in material and equipment, the Americans have fundamental weaknesses, political, moral and military, strategically and tactically."

"If total American power is not unlimited—principally due to their overseas commitments and their policy of world hegemony, the fact that they are waging a war of aggression on our soil thousands of miles from their own country, their inability to transform any part of our territory into a stable base for themselves—these are other weaknesses that are fundamental and irreparable."

"In the day-to-day conduct of the war, these weaknesses are very obvious: they increase day by day and will finally lead to their inevitable defeat."

"The very considerable victories which we have brought off since the massive commitment of American forces, above all during the 1965-69 dry season, prove not only in theory but in practice that we are capable of wiping out the most battle-hardened troops of the U.S. Expeditionary Corps and the satellite armies. We firmly retain the initiative on the battlefield and the rhythm of our attacks."

"We can successfully stand up to the new American reinforcement and militarily defeat the American aggressors in any situation whatsoever. In fact, just as it is obviously true that the Americans cannot bring off a military victory in South Vietnam, it is also obvious to us that the South Vietnamese people and its

armed forces, organized in the National Front of Liberation, can bring off the final victory—despite U.S. military and economic strength."

IN FURTHER DISCUSSIONS with Tho and his military advisers, it became clear that "final victory" is not conceived as wiping out all Americans on South Vietnamese soil or throwing all Americans into the sea, still less imposing a total military defeat on the U.S. It means that the NLF leadership is confident that it can smash every offensive the U.S. and its satellite forces mount, that it can defeat every military and political maneuver, that it can impose heavy losses on enemy troops on a sharply rising scale, that it can continue to defend and enlarge the territory and population under its control; that at the end the U.S. will see that there is no alternative but to pack up and go home.

"When we speak of 'final victory,' that means an independent and sovereign South Vietnam—democratic and neutral, without any foreign troops on our soil," said NLF staff officer Truong Ky. "We are not seeking to impose a military defeat on the U.S. or such. If the Americans withdraw and want to call it their victory—they can do so. We won't even argue about who was the victor, who the defeated. Our independence and sovereignty are prize enough. For them we continue to fight till the end—and we will win."

With over 25 years of experience in covering wars in Asia, I am convinced that Nguyen Huu Tho and Truong Ky are right. The NLF can...

CONCERNED CITIZENS' MEETING, WEDNESDAY, SEPT. 21, 1966
San Mateo Congregational Church at 8 p.m.

Notes by [redacted] who attended the meeting.

b6
b7C

This meeting was held in Kless Hall with an estimated 220 to 230 people in attendance. About two thirds of them were under thirty, and about fifty per cent were under twenty. How many were members of the Congregational Church youth group is unknown. Likewise, it is unknown what effort, if any, was made by Church authorities to encourage youth attendance. (This latter matter should be investigated). [redacted] and [redacted] were members of the reception committee.

The writer was met at the door by a committee of greeters who asked for each person's name and address so they could send literature to them. All literature at the tables was being procured, some being paid for: namely, the two photo books (Price, \$4). (The literature is being turned over to the Church Study Committee for investigation). Those in charge of the meeting were a "motley crowd". A number of their faces were familiar as they have been seen on TV and newsreel photos.

The first speaker was [redacted]. He opened his spellbinding speech with a brief statement on the Viet Nam War, declaring that it was bad; but, then, he immediately changed to his great concern over conditions in the United States. He stated that we have endured white tyranny government rule in this country for over 200 years. He also stated that the Johnson Administration will do absolutely nothing about the existing conditions, cannot be reached, and listens to no one. The coming election will not change the situation. The people of the U. S. are asleep, and will not be aroused, so no help can be expected from them. He asks, "What can be done?" He answers, "Mass demonstrations with our bodies, not with shot guns, but with disobedience marches, mass picketing of munitions plants, and shipping ports."

b6
b7C

Then followed a dramatic description of the birth of his son a few weeks ago, just before he departed for a hard weekend of picketing at Port Chicago, where he expected at any moment to be run down and killed by brutes. He had fifteen minutes with his son before departing (for war at Port Chicago) during which he reflected on what the son would say fifteen or so years hence. The dramatic answer was, "I was on the picket line at Port Chicago."

Black power was then mentioned. He stated that we are going to organize "white power", which will join hands with "black power" in massive picket lines and demonstrations against the U. S. Government, again asserting, not with guns, but with our bodies to disrupt and stop the war effort. A dramatic appeal followed to stand up and be counted, asking how many would refuse to pay their income taxes and otherwise engage in so called non-violence activities.

He told of visits to Chicago, Cleveland, and Atlanta, mentioning police brutality. His final admonition was that he had not as yet, engaged in civil disobedience, but the time was soon coming when great crowds of civil disobedience will be choking our streets, and he will be found organizing, admonishing, and leading the movement as he was doing in the speech.

The second speaker was [redacted] but a Palo Alto resident for a number of years, except when he was traveling abroad, particularly, Red China, North Viet Nam, and South America, as a searcher "for the truth" about these countries. U. S. History was reviewed during World War II. He stated that we emerged as the richest country of all times, exceeding the wealth of all nations since the beginning of time. This was done, he asserted, with practically no regard of life, or loss of material. This wealth accumulation continued until the U. S. found itself in "a bind", so the Viet Nam War was TRUMPED UP to continue prosperity.

b6
b7c

[redacted] asserted that in his talks with the North Viet Nam ruler, he is convinced that they have a greater justification in waging the so called "war of liberation", than the U. S. has of defending a small nation in preserving its independence. This same theme is dramatically brought out in [redacted] book of Communist propaganda. (Price, \$3).

He stated that we cannot conquer North Viet Nam, for this was tried by France and failed. If the U. S. remains in the Viet Nam War, Red China will surely step in. The U. S. should pull out, regardless of the after effects. He criticized the U. S. for wasting materials that could not be delivered in one breath, and shortly thereafter said that construction of permanent port facilities showed that the U. S. was going to permanently occupy Viet Nam.

b6
b7c

[redacted] disagreed with [redacted] defeatist attitude, and asserted that our government will listen to demonstrations, and eventually stop the war. This was in contrast to [redacted] veiled threat of civil disobedience "take over" of our government.

The third speaker was a young "bearded minister who advised draft eligibles how to avoid it. He believed this was an honorable service, and announced his address for those who wished to get help.

A question period was announced. However, [redacted] again appeared, and dramatically described a young Navy enlistee's confinement in the "bilge", below deck, being fed bread and water and tortured in final conviction of refusing to go to Viet Nam. (This man was pictured as a hero, and as an example to be followed by objectors.)

b6
b7c

[redacted] then started to answer "planted" questions from the audience. The writer left at this point.

CONCLUDING PARAGRAPHS

Notwithstanding mistakes by our government, we, as a church, cannot afford to sanction and abet these organizations. It is openly plotting against our government, creating and encouraging civil disobedience. The plans are well laid and cleverly executed. Holding meetings at our church or any other public meeting place is meant to lend respectability to the above mentioned diabolical plan. [redacted] destructive, pessimistic, and anti-government attitude has no place in Christian philosophy. b6 b7C

Who arranged this meeting, and previous ones by this organization? Likewise, by what authority is it permitted? It is demanded that such meetings be forthwith discontinued; and that we, as a church, take an outright stand against propaganda.

This movement is aimed at poisoning the minds of our young people, leading them into civil disobedience activities, above all, less faith in our form of government, and eventually, its overthrow.

I am for race tolerance. My many years of public school work as a teacher has brought me in contact with many races and creeds. My associations with them have been pleasant and rewarding.

I see nothing Christian in the objectives of the foregoing described organization, but rather a cleverly devised propaganda means, which eventually aims at the destruction of our democratic form of government.

If we are to survive as an effective Christian organization, we must "disown" the "Concerned Citizens" group herein described, and clearly set forth our policy in relation to our government.

Sincerely,

[redacted]

In this time of moral and civil turmoil it is the responsibility of all Americans to support those institutions which have sustained our free country. Do you agree with J. Edgar Hoover that growing civil turmoil is a number one threat to the peace and safety of America? Do you recognize the long-range implications in the term "civil disobedience"? If you do, you may be interested in knowing about the Millbrae - Burlingame - Hillsborough TACT Committee.

TACT has been formed by a group of your neighbors and friends who are working together for a better understanding of the real causes and purposes behind the growing wave of turmoil now sweeping our country. During the months to come the Millbrae - Burlingame - Hillsborough TACT Committee will sponsor speakers who are nationally recognized authorities on the increasing problem of disrespect for law and order: riots, campus demonstrations, and other developments we hear and read about daily. TACT hopes that by providing educational lectures, films, books and other printed material from knowledgeable sources a better understanding can be created in the community of the underlying causes for these problems. The Committee agrees with J. Edgar Hoover, who stated:

"We are not going to stand by while celebrity status is accorded those sick minds and corrupt souls who tamper with and ridicule our orderly process of government under law. We must choose between law and anarchy—freedom or chaos."

Our Beliefs and Principles are:

1. All citizens face extreme danger from civil turmoil and the resulting anarchy in cities of our country. Many citizens do not know that a subversive force is hard at work to use unsuspecting Americans to foment turmoil.
2. Much hatred is being deliberately fomented and is actually resulting from civil turmoil, and will make it harder rather than easier to arrive at equitable solutions to problems that always face a free people.
3. The cure for civil turmoil is a better understanding of the underlying causes and a greater respect for law and order.
4. We welcome as members all citizens who are sincerely interested in retaining law and order, and in stressing legal methods of redressing grievances, thereby improving mutual good will and understanding among all loyal Americans.

The work TACT is doing needs you and every interested citizen. A form is enclosed which offers you the opportunity to share this undertaking. Your comments and suggestions will be sincerely appreciated.

America's Time Bomb?

COMMUNIST GAINS AMONG YOUTHS

—J. EDGAR HOOVER REPORTS

How Communists have penetrated American youth movements—in colleges, civil-rights organizations, antiwar drives and other areas—is described by J. Edgar Hoover, the Director of the Federal Bureau of Investigation, in an FBI report that was released on October 19.

Mr. Hoover's findings throw additional light on recent riots, campus disorders and other developments in America. What follows is an excerpt from his report.

An optimistic Communist Party, U.S.A., moved into more open activities during the 1965 fiscal year [12 months ending June 30] in its efforts to gain new influence and promote its programs.

It pressed with renewed vigor in all areas of its operations, giving special attention to slashing attacks on American foreign policy, the infiltration of the civil-rights movement, and youth recruitment.

Although the party loudly proclaims its independence of foreign control, its every action tends this façade to show clearly that it owes allegiance only to the Soviet Union, and is absolutely committed to the world Communist movement.

Ample evident of this was the reaction of party leaders to the June 22, 1964, decision of the United States Supreme Court declaring unconstitutional the passport section of the Internal Security Act of 1950, which prohibited any member of the Communist Party, U.S.A., from applying for, using or attempting to use a United States passport.

As soon as passports became available to them under this ruling, many party functionaries traveled to the Soviet Union, where they were feted, shown much favor, and indoctrinated for new assaults against their homeland.

The Communist Party's traditional opposition to any facet of American foreign policy which serves to impede international Communism reached new levels of invective with all-

out attacks on this country's commitments in Vietnam and the Dominican Republic.

Denouncing U. S. action in South Vietnam as "brutal" and "barbarous," the party has instructed its members to co-operate with all protest groups, in order to intensify these activities and weaken the Government's position. The party is making a concerted effort to exploit to its advantage the various demonstrations against American involvement in Vietnam and the Dominican Republic.

The Communists have been much encouraged by the current wave of social unrest in the United States. They view this situation as the development of a climate favorable to their operations and are constantly probing to exploit areas of discord. It is a rare civil-rights activity, whether it be a voters' registration drive, a demonstration, march or picket, that does not attract Communists to some degree.

A striking example of this was seen in the riots which erupted in the Harlem area of New York City in July, 1964. The Progressive Labor Movement—since renamed the Progressive Labor Party—a dissident and highly militant splinter group of the Communist Party, U.S.A., was involved in prolonging these demonstrations by deliberate incitement of the rioters. Representatives of this group distributed provocative literature and delivered inflammatory street-corner harangues, which increased the tension in the riot area to a marked degree.

In general, legitimate civil-rights organizations have been successful in excluding Communists, although a few have received covert counseling from them and have even accepted them as members.

The Communist Party is not satisfied with this situation and is continually striving to infiltrate the civil-rights movement at every level.

The FBI does not investigate the legitimate activities of civil-rights groups, but from an intelligence standpoint it is concerned with determining the extent of any possible Communist infiltration.

The 1964-65 school year was a busy time for Communist leaders in all areas of the country, as the party intensified its efforts to attract young people through public appearances on college and university campuses.

Party leaders, encouraged by earlier successes, spoke to more than 37,000 students in 56 appearances during this period. This concentration on college campuses was aimed at gaining acceptance for the party as a legitimate political activity, creating an aura of respectability and understanding for the party and spreading Communist propaganda. Communist Party leaders also appeared as guests on numerous radio and television programs.

Another major weapon which the Communist Party is directing against young people is the W. E. B. DuBois Clubs of America. This party-oriented youth organization, founded in June, 1964, at a convention in San Francisco, Calif., which was dominated and controlled by Communists, has as its basic aim the promotion of Marxism-Leninism. The Marxists believe that these clubs, which are centered on college campuses, have great promise in reaching youth.

CIVIL TURMOIL - CAUSE AND CURE

The man who challenged Adam Clayton Powell in the recent special election, Rev. E. Freeman Yearling, not only knows and understands the civil rights problems but how to solve them. Reverend Yearling is the founder of the National Negro Congress of Racial Pride which lists among its objectives: "To expose and eradicate Communist activity throughout the United States, especially among ethnic minorities . . . To encourage the American Negro, through education, precept and example to become part of the American answer, not the American problem; and to this end, to encourage among American Negroes the realization that an honest day's work, in any honorable calling however humble, is among the noblest calling of any American. To encourage American Negroes to spurn the 'free' handouts of the welfare statists for what they really are: the crassest form of economic slavery, which can only lead the Negro on an ever downward spiral of misery and dependency."

These are strong words from a strong man. He has the guts to tell the truth! Will you listen?

NATIONAL NEGRO CONGRESS OF RACIAL PRIDE

1. The preservation and proliferation of Americanism.
2. To expose and eradicate Communist activity throughout the United States, especially among ethnic minorities.
3. To educate the American public, and especially the American Negro, to the fact that Communism is, above all, atheistic and anti-God.
4. To cultivate in the American Negro pride in himself as an individual, as a Negro, and as an American.
5. To educate the American public, and especially the American Negro, to the fact that racial agitation and socio-economic unrest head the list of Communist objectives in the United States.
6. To encourage the American Negro, through education, precept and example, to become part of the American Answer, not the American Problem; and to this end, to encourage among American Negroes the realization that an honest day's work, in any honorable calling however humble, is among the noblest callings of any American.
7. To encourage American Negroes to spurn the "free" handouts of the welfare statists for what they really are: the crassest form of economic slavery, which can only lead the Negro on an ever-downward spiral of misery and dependency.
8. To expose those self-appointed Negroes and other "leaders" of the American Negro, whose continued power as "leaders" depends on perpetuation of the very misery and subjugation which they claim to oppose.
9. To speak for no one, and to pretend to speak for no one, except for our own members, pursuant to authority duly derived in a constitutional and democratic process, with the consent of those members themselves.
10. To carry our message to every city, hamlet and briarpatch in the United States.
11. To provide legal, moral and other assistance to American Negroes who are subjugated, intimidated or harrassed by self-appointed "friends" or "leaders" of whatever race.
12. To encourage among American Negroes the realization that the American "color" problem, and the economic plight of the American Negro, will not be solved unless we engage in an open, frank, face-to-face dialogue with White segregationists and racists who choose to believe that the Negro is somehow inferior. To engage in a similar dialogue with White liberals who (notwithstanding their protestations) by their insistence upon forcible race congregation through quota systems, have also evinced their mistaken belief that the Negro is so inferior that he must be made a ward of the State. To engage in a similar dialogue with Black Nationalists, Black Supremists and Black Separatists who believe that Negro progress can be achieved only by isolating the Negro from the White.
13. In furtherance of the above aims, to operate a national organization, run primarily for American Negroes for the progress and benefit of American Negroes. To accept the friendship, membership and support of persons of whatever race, but to make clear that provocateurs and merchants of unrest, be they imported West Indians, White liberals, Black Separatists, or of any other color or persuasion, are entirely unwelcome.

NATIONAL NEGRO CONGRESS OF RACIAL PRIDE

APPLICATION FOR MEMBERSHIP

I hereby apply for membership in the NATIONAL NEGRO CONGRESS OF RACIAL PRIDE.

As a condition to membership I affirm:

1. My belief that the American Negro is capable of progress without the forcible imposition of racial quotas, and without being made a ward of the State.

2. My allegiance and loyalty to the United States of American, and to its government through an objective Constitution, with the consent of the governed.

3. My belief in a Supreme Being, and in the unfettered right of all men to worship that Supreme Being, when they please and where they please.

4. My firm opposition to Godless Communism and the slavery which it represents.

I agree to support by the purposes and philosophy of this organization. My annual dues for my first year's membership, in the amount of \$2.00, are enclosed.

Lola Holmes, a negro, devoted seven years of her life to working within the Communist Party for the F.B.I. While in the Communist Party, Miss Holmes carried out Moscow orders to gain control of the "civil rights" movement and to use it as the torch to light a fire of revolution in America.

Her energy and ability quickly propelled her into top leadership positions in the Party where she served as a national officer for the Negro Commission of the Communist Party. Lola Holmes left the Party in 1963 to testify before the Subversive Activities Control Board against Claude Lightfoot, Chairman of the Communist Party in Illinois.

Learn why this patriotic woman, who has already given seven years of her life to exposing communism for the F.B.I. is now working night and day warning her fellow Americans of the holocaust that awaits them if they do not learn of communist plans for victory in America through civil turmoil.

These Communist posters from Watts depict the recruiting and training now in progress for guerrilla warriors within the United States in order to force the government to bring home troops from Vietnam.

Communist Party spokesman Mike Laski, who admitted working in the Watts riots (L.A. Herald-Examiner, Oct. 7, 1965), addresses a crowd of college students at Fullerton State College. At left is Eston Simmons who wears a Red Guard uniform while recruiting guerilla warriors in Watts, Simon Casady (center), former President of the California Democratic Council and Professor Stuart Silver of Fullerton State share the podium with the Communist

Stokely Carmichael (in Black Muslim skull cap) on Martin Luther King's staff at the Black Power Rally at Berkeley (Oct. 31, 1966). Carmichael, who vociferously advocates "shoot white cops," is reported by F.B.I. Director J. Edgar Hoover as having been in frequent contact with Max Stanford, field chairman of the Revolutionary Action Movement, a highly secret, all-Negro, Marxist-Leninist-Chinese Communist-oriented organization which advocates guerilla warfare to obtain its goals (L.A. responsible patriots?

Rev. Yearling was recently elected to the Malverne School Board in New York City. A champion of freedom and individual rights, he has stated, "Compulsory integration, racial balancing and busing are un-American, unconstitutional and morally wrong. I oppose 'reverse discrimination,' for example — it is just as wrong to hire a man because he is a Negro as not to hire a man because he is a Negro."

Julia Brown, having been deceived into joining the Communist Party, remained for nine years as an undercover agent for the F.B.I. She states, "... unless we all begin acting like responsible Americans the Communists will use this phony 'civil rights' movement to seize our property, destroy our churches and enslave our families."

The editor of the Butler County American, a weekly newspaper in Hamilton, Ohio is Alvin Smith, an outspoken pro-American. Mr. Smith has written, "In America, our first job is to step and rout the Communists. Then all other problems, including racial problems, can be worked out in peace and freedom."

Sgt. Clide Brown, now on duty in Vietnam, states, "We're here fighting for a cause, not a white or a black cause or any [junk] like that. I'd like a chance to meet Stokely [Carmichael] out there with the V.C. ... I wish Martin Luther King and William Fulbright could see for themselves the savage butchery that the Viet Cong have wrought ..."

Speaking on

AMERICA BLACKMAILED BY THREATS OF VIOLENCE

Having joined the Communist Party in the mistaken belief that it was a "civil rights" organization, Julia Brown, a negro lady from Cleveland, Ohio, is uniquely qualified from personal experience to reveal how the Reds pervert legitimate movements at the highest levels. Mrs. Brown quit the Party after nine months when she realized the Communist Party is "a conspiracy trying to destroy my country." She immediately contacted the FBI, which requested that she continue to work within the Party as an undercover operative. For nine years Julia Brown risked her life supplying the government with vital information on Communist activities until she was "surfaced" to testify before a Congressional Committee in 1962. Here is your opportunity to learn first hand of Communist techniques of infiltration and perversion within the civil rights movement.

Civil Rights Movement Called 'Force, Sham'

"The civil rights movement is really a farce and a sham. It's the same old story of forcing Negroes to march in black, then being led by the cops and testified before the white trash."

So says Mrs. Julia Brown, former Communist Negro undercover operative for the FBI. She made the remark before more than 200 persons last night at the Salinas Woman's Club.

"America Blackmailed by Threats of Violence," was the title of her presentation. She was joined by the Salinas Woman's Club and the Salinas Chapter of the National Council of American-Soviet Friendship.

Infiltration Charged

In her presentation last night she told how Communists had infiltrated — or, more often, formed — so-called civil rights organizations. She became involved with the Communist Party, USA in Cleveland in 1947 when she thought she was joining the Ohio Civil Rights Congress.

"It was only a front," she said, "and I can say almost every so-called civil rights group in the United States is a front. The Communists are not interested in helping the Negro; they're interested in helping Communism and nothing else."

Mrs. Brown, author of the autobiography, "I Testify," and a ranking member of the film, "Anarchy USA," quit the Communist party after about a year.

"I finally went to the FBI to warn them of the scope of Communist infiltration to alert them," she said. "I was surprised to find the least to learn that the FBI already knew everything I was going to warn them about."

Later, at the FBI's request, she rejoined the party and worked as a secretary for many fronts and obtained valuable

information.

She ended her opera-

tion with a warning to the

National Council of American-Soviet Friendship.

She said the "cold war is a hot war" and that the FBI is a "real hot one."

She also said that the FBI is "a real hot one."

Said the National Council of American-Soviet Friendship "has done as much to promote Communism as the National Anti-Defamation

League." She also claims thousands of churches are infiltrated and "if you hear a preacher talking socialism you better walk out of his church, or put him out of yours."

—Claims "it's legal to be a traitor" because it's legal to be a Communist.

—Refused to endorse anyone for president of the United States, but predicted that Bobby Kennedy would get the Demo-

cratic nomination. "And he'll win if you aren't careful," she commented.

She cautioned to "be careful of the Democratic ticket because I don't see anything there—and this (election) year is going to determine our destiny."

—Advised all Americans to disregard Negro militants and "black power" groups. "Dick Gregory, Rap Brown, Stokely Carmichael and all their kind

should be examined and then put away," she said. "I can't say they're Communists, but I know they're loud-mouthed maniacs."

—"America is not the land of the free anymore," Mrs. Brown claims, "and it won't be until law and order is restored."

That and many other comments drew standing applause from the audience.

A Bircher Who Bored In

A clean-cut, 29-year-old former illustrator last night peered over a rostrum and spent better than an hour telling an audience how the John Birch Society sees the troubled times.

Addressing some 80 people in the tiny auditorium of Argonne School on 18th avenue—the fog misting the windows outside—David E. Gumaer said:

•The turmoil on the Nation's college campuses is the work of "trained, full-time Communist agitators."

•So are the various anti-war movements.

•Also the civil rights movement.

•Senator Edward Kennedy and the late Robert F. Kennedy had an admitted Communist lawyer working for them.

Gumaer, who spent two years infiltrating various organizations before he was

discovered, spoke before a meeting sponsored by TACT (Truth About Civil Turmoil), a Birch Society unit.

The crowd, mostly middle-aged to elderly, sat rapt and silent as Gumaer flourished pamphlet after pamphlet and bombarded them with the names of dozens of people he said were comrades, dupes and fellow travelers.

THE KU KLUX KLAN

"I WAS IN THE K.K.K. FOR THE F.B.I."

A man of rare courage and conviction, Reverend Delmar Dennis risks his life to bring you the true story of the Ku Klux Klan, an organization that vows to kill those who divulge its secrets.

✓ The twenty-seven-year old former pastor of The First Southern Methodist Church in Meridian, Mississippi infiltrated the Klan at the specific request of the Federal Bureau of Investigation, in order to collect first-hand information for Chief J. Edgar Hoover's G-Men. In the recent trial involving the deaths of three "civil rights" workers in Mississippi, Reverend Dennis' testimony was instrumental in seven convictions for conspiracy to commit murder.

Reverend Dennis contends that the real significance behind the role of the Ku Klux Klan in America has not yet been revealed. He says, "There is still an important story that needs to be told. The Ku Klux Klan has become an important tool of Communist agitators who want to bring a race war to America. I know this from personal experience."

Reverend Dennis' extraordinary story is one you will not want to miss. TACT guarantees to provide you an evening full of revealing information you will never forget. You will also have a chance to meet in person the brave man who has defied death threats to bring you this important information.

LEGITIMATE PROTEST OR — PLANNED SUBVERSION FROM THE CAMPUS?

David Emerson Gumaer, while working as an undercover operative for Police Intelligence, was assigned to infiltrate and report on the subversive activities of the so-called New Left movement in America. For two years he was a member of the Communist youth apparatus — the campus based W. E. B. DuBois Clubs.

Once accepted as a fellow revolutionary, Gumaer worked his way into high level national staff meetings of the Communist DuBois clubs, and in fact, worked for a time in their national office in Chicago. Having gained the confidence of DuBois leadership, he was directed by Police Intelligence to join several other left organizations, including the notorious S.D.S., Students For a Democratic Society.

Gumaer attended strategy meetings of the Trotskyite Communist Young Socialist Alliance, the youth arm of the Socialist Workers Party, and discussed revolution with the leader of the violent Revolutionary Action Movement (RAM). He was also a staff member of the Communist controlled National Conference For New Politics.

His investigation revealed an incredible plot to recruit America's campus youth in a subversive movement aimed at the ultimate violent overthrow of our government.

J. EDGAR HOOVER'S 1960 WARNING

J. EDGAR HOOVER

Communist Infiltration and Agitation Tactics

Report by J. Edgar Hoover, Director, Federal Bureau of Investigation

The successful Communist exploitation and manipulation of youth and student groups throughout the world today are a major challenge which free world forces must meet and defeat. Recent world events clearly reveal that world communism has launched a massive campaign to capture and maneuver youth and student groups.*

A Basic Tenet of Communist Strategy

It has long been a basic tenet of Communist strategy to control for its own evil purposes the explosive force which youth represents. In the relentless struggle for world domination being waged by them, Communists are dedicated to the Leninist principle that "youth will decide the issue of the entire struggle—both the student youth and still more, the working-class youth."*

COMMUNISTS ORDERED TO CONCENTRATE ON YOUTH

In the Declaration of the International Communist Conference held in Moscow in November and December of 1960, it was pointed out that, "There are new opportunities now to draw the younger generation into the struggle for * * * the great ideas of Communism" and the Declaration ordered the Communists of the world to "extend their work among the youth." (World Marxist Review, December 1960.)

The Communist Party in our country, true to form, immediately made plans to carry out Moscow's instructions. Gus Hall, as head of the Communist Party, U.S.A., ordered the party to "give much higher priority for the work among youth."†

At Youth Conferences during the early 1960's the Party launched a tremendous drive to infiltrate student groups. Careful plans were drafted explaining how young Communists, working on the campuses, could exploit such controversial subjects as civil rights, academic freedom and other so-called "peace" issues.†

MANY AMERICANS POINT TO THE STRENGTH OF OUR NATION AND TAKE COMFORT IN THE THOUGHT THAT, "IT CAN'T HAPPEN HERE"

TACT Committees are organized in your community by concerned local citizens for the sole purpose of helping their neighbors understand the forces that are using our youth, our desire for peace, freedom of speech, and so-called civil rights, to pit one segment of our society against the other, in an organized effort to create civil turmoil leading to riots, destruction and lawlessness. We ask all individuals to join with us and, through education and understanding, help expose these forces that are turning American against American.

IS IT HAPPENING HERE?

The majority of America's youth are undoubtedly patriotic. Unfortunately, many young people in our nation are totally unaware of the extent to which they are being victimized and exploited.

David E. Gumaer, in cooperation with the F.B.I. and local police, risked his life to learn the truth about subversion on America's campuses.

While working as an undercover operative for the Intelligence Division of a major metropolitan Police Department, Dave Gumaer penetrated the policy-making meetings of such groups as:

(HPC)	Hyde Park Committee To End The War In Vietnam
(DBC)	W. E. B. DuBois Clubs of America
(SDS)	Students For A Democratic Society
(SSOHR)	South Shore Organization For Human Rights
(YSA)	Young Socialist Alliance
(NCAHUAC)	National Committee To Abolish The House Un-American Activities Committee
(SMC)	Student Mobilization Committee
(NCNP)	National Conference For New Politics
(CPC)	Chicago Peace Council

After sitting through many secret, behind-the-scenes planning sessions, where professional agitators of the New Left discussed their strategy for controlling campus demonstrations, Dave Gumaer learned exactly how marches and demonstrations and riots are being engineered. He will explain what the New Left has planned for this year's long, hot summer.

Undercover Agent Describes New Left Revolutionary Plans

The life of an undercover agent was vividly described during a meeting last night of the Salinas TACT (Truth About Civil Turmoil) Committee.

David E. Gumaer, a professional artist who posed as a member of New Left organizations for two years, told an audience of approximately 100 persons in the Salinas Woman's Club that the youth movements were dominated by Communist influences.

The 29-year-old speaker, now a reporter for American Opinion magazine, was employed by the intelligence division of the Chicago Police Department during his danger-filled double life.

Gumaer first heard of the New Left in 1964 while living near the University of Chicago. He was then employed in the graphic arts department of American Oil Co.

Through a friend, a Ghanaian foreign exchange student at the University, Gumaer gained entrance to a meeting at the school sponsored by the left-wing Students for a Democratic Society (SDS).

"I didn't believe the things I heard at first . . . it sounded so far-fetched," Gumaer said. However, after seeing predictions of delayed troop trains, massive evasion of the military draft, and rallies for the Viet Cong became realities, he was convinced of the power of the New Left.

After discussing the Chicago meeting with friends on the police force, Gumaer was asked to infiltrate the New Left as an undercover agent for police intelligence. He was briefed for his new role by studying pamphlets of the Senate Internal Security Subcommittee.

ly busy movement," Gumaer stated. "Publicly, it promotes civil rights, peace, and freedom. Privately, though, it preaches revolution."

There is a constant reference to revolution during New Left meetings Gumaer added. The end result, he said, "is to turn the streets and college campuses into battlefields."

The insights were gained by attendance at meetings of the Du Bois clubs, the SDS, and the Trotskyite Young Socialist Alliance. Gumaer also heard a leader of the Negro militist Revolutionary Action Movement chillingly talk of a heavy buildup of weapons and trained demolition experts waiting ready "to burn the cities down."

Gumaer participated in both the April, 1966 State Street demonstration in Chicago and the April, 1967 Vietnam Week march in New York City, and attended the National Conference for New Politics in the Palmer House Hotel, Chicago, in August 1967.

His role ended during the latter event, when a Chicago Tribune account of happenings at the conference "compromised my sensitive position," Gumaer, as a member of the conference registration committee, leaked information to the press. When the story broke on a top Communist leader attending the meeting, he was suspect.

Now living "out of a suitcase," Gumaer found time last winter to testify in closed session to the Senate Internal Security Subcommittee and has written numerous articles on his undercover activities.

He still maintains contact with New Left activities, having observed the October, 1967 Washington march on the Pentagon, the Resurrection City, and the "dem-

Communist-directed groups and once worked for Cesar Chavez, Mexican-American leader of the movement to unionize California farm workers. Chavez, too, said Gumaer, is Communist-influenced.

The Communists bombed their own New York City headquarters during the 1966 disturbance to create sympathy for the New Left.

At least 200 professors at the University of California, Berkeley, are Communists, New Left leaders also voiced the opinion that at least half of the College student body presidents and three-fourths of the college newspapers were under their control.

Gumaer said Communist leaders fear most four organizations: the FBI, HUAC, the Senate Internal Subversion Subcommittee, and the John Birch Society. He joined the Birch Society himself four years ago.

Gumaer also voiced approval of George Wallace as the only one of the three major presidential candidates "who said he would eliminate Communists from the government."

His major message, however, was the threat from the organizations he had infiltrated. "I've seen revolution in the making," Gumaer told his listeners. "Where thousands now march for the New Left, tomorrow it will be millions . . . and they seek to tear the country apart from within by causing a black versus white civil war."

Based on contact with friends still within the movement, Gumaer said new major protests are planned during the week of Oct. 21-27 and probably on Election Day, also.

He was given a standing ovation both following his talk and the question-and-answer period.

HERMAN H. DINSMORE

Herman H. Dinsmore started his newspaper career with the Baltimore American in 1923, immediately after his graduation from Johns Hopkins University. After a period with the Baltimore Sun, he joined the foreign desk of the New York Times in 1929, rising to the position of editor of its international edition from 1951-1960.

He has also taught in the Columbia Graduate School of Journalism and served as Visiting Professor of Journalism at Long Island University in 1966. Mr. Dinsmore is presently in the Department of Communication Arts at Seton Hall University.

In his book, **All The News That Fits**, he charges that systematic distortion of the news is a matter of official Times policy. And, furthermore, he contends that the influence of that policy is clearly seen in newspapers and periodicals around the world and in the highest levels of our government.

Dear Mr. Lazar:

Re: TACT (Truth About Civil Turmoil)

This letter and the enclosed 54 pages of Xeroxed material are in response to your Freedom of Information Act - Privacy Act request, dated April 6, 1982.

We have searched the indices to the Central Records System of the San Francisco Office pursuant to your request, reviewed the indicated references and located 80 pages identifiable with the subject of your request.

Your request has been considered under the provisions of both the Freedom of Information Act, (Title 5, U.S. Code, Section 552), and the Privacy Act of 1974, (Title 5, U.S. Code, Section 552a). The Attorney General has determined that requests by individuals seeking information about themselves are governed by the Privacy Act. In addition, as a matter of administrative discretion, any documents which are found to be exempt from disclosure under the Privacy Act, will also be processed under the provisions of the Freedom of Information Act. Through these procedures you receive the greatest degree of access authorized by both laws.

The enclosed constitutes all information we are authorized to release under the current guidelines. Excisions or deletions have been made in order to protect the material or information exempted from disclosure by Title 5, U.S. Code, Section 552:

- (b) (7) investigatory records compiled for law enforcement purposes, the disclosure of which would;
 - (C) constitute an unwarranted invasion of the personal privacy of another person;
 - (D) reveal the identity of an individual who has furnished information to the FBI under confidential circumstances or reveal information furnished only by such a person and not apparently known to the public or otherwise accessible to the FBI by overt means.

Twenty-six complete pages have been withheld from release to you. Three of the pages contain information which, upon review for current classification, was determined to be classified and is therefore exempted from release. Title 5, U.S. Code, Section 552, exemption (b) (1) allows information to be withheld if it is determined to be currently and properly classified pursuant to Executive Order 12065 in the interest of national defense or foreign policy. Two of the pages, withheld in their entirety, contain information which, if released, would constitute an unwarranted invasion of the personal privacy of another individual, (b) (7) (C). Seven of the pages contain information which would reveal the identity of individuals who furnished information under confidential circumstances or would reveal information which could only be furnished by such a person and not apparently known to the public or otherwise accessible to the FBI by overt means, (b) (7) (D). The remaining fourteen pages, withheld from release, contain information exempted under both (b) (7) (C) and (b) (7) (D), described above.

In addition to the records reviewed by San Francisco for release to you, five documents were found to have originated with another Federal Agency. Pursuant to 28 CFR 16.43, these documents are being referred to the Department of Defense, and they will correspond with you directly.

A few of the documents furnished with this release are only marginally readable. The originals are of poor quality, and the duplicating process has rendered a copy of even poorer quality. The enclosed documents represent the best reproductions we are able to make.

If you desire, you may submit an appeal from any denial contained herein. Appeals should be directed in writing to the Assistant Attorney General, Office of Legal Policy (Attention: Office of Information and Privacy), United States Department of Justice, Washington, D.C. 20530, within thirty days from receipt of this letter. The envelope and the letter should be clearly marked "Freedom of Information Appeal" or "Information Appeal." Please cite the name of the office to which your original request was directed.

STRATEGY FOR DEFEAT

For seven years, American youth have been ordered to fight the Communists in Vietnam, but not to win! Over 30,000 young Americans have been killed. Thousands more have been wounded and permanently maimed.

Yet, our own government provides aid to and promotes trade with the Communist governments that are supplying Communist North Vietnam with weapons used to kill and maim Americans. And the peace talks drag on.

What kind of war is this? Why does our government aid the enemy? Why aren't we allowed to win?

Those are questions our men in Vietnam are asking — men like Green Beret Sgt. Peter Stark. He lost both legs in Vietnam. They were blown off by an explosive device built in Eastern Europe by a Communist government that still receives American aid.

Undercover Agent Describes New Left Revolutionary Plans

The life of an undercover agent was vividly described during a meeting last night of the Salinas TACT Truth About Civil Turmoil Committee.

David E. Gumaer, a professional artist who posed as a member of New Left organizations for two years, told an audience of approximately 100 persons in the Salinas Woman's Club that the youth movements were dominated by Communist influences.

The 29-year-old speaker, now a reporter for American Opinion magazine, was employed by the intelligence division of the Chicago Police Department during his danger-filled double life.

Gumaer first heard of the New Left in 1964 while living near the University of Chicago. He was then employed in the graphic arts department of American Oil Co.

Through a friend, a Ghanaian foreign exchange student at the University, Gumaer gained entrance to a meeting at the school sponsored by the left-wing Veterans for a Democratic Society (VDS).

"I didn't believe the things I heard at first. . . It sounded so far-fetched," Gumaer said. However, after seeing predictions of delayed troop trains, massive evasion of the military draft, and rallies for the Viet Cong became realities, he was convinced of the power of the New Left.

After discussing the Chicago meeting with friends on the police force, Gumaer was asked to infiltrate the New Left as an undercover agent for police intelligence. He was briefed for his new role by studying pamphlets of the Senate Internal

Security Committee. "Publicly it promotes civil rights, peace, and freedom. Privately, though, it preaches revolution."

There is a constant reference to revolution during New Left meetings Gumaer added. The end result, he said, "is to turn the streets and college campuses into battlefields."

The insights were gained by attendance at meetings of the Du Bois clubs, the SDS, and the Trotskyite Young Socialist Alliance. Gumaer also heard a leader of the Negro militant Revolutionary Action Movement chillingly talk of a heavy buildup of weapons and trained demolition experts waiting ready "to burn the cities down."

Gumaer participated in both the April, 1965 State Street demonstration in Chicago and the April, 1967 Vietnam Week march in New York City, and attended the National Conference for New Politics in the Palmer House Hotel, Chicago, in August 1967.

His role ended during the latter event, when a Chicago Tribune account of happenings at the conference "compromised my sensitive position." Gumaer, as a member of the conference registration committee, leaked information to the press. When the story broke on a top Communist leader attending the meeting, he was exposed.

Now living "out of a suitcase," Gumaer found time last winter to testify in closed sessions to the Senate Internal Security Subcommittee and has written numerous articles on his undercover activities.

He will maintain contact with New Left activities, having observed the October 1967 Washington D. C. march on the Pentagon. He is now re-

Communist-directed groups and once worked for Cesar Chavez, Mexican-American leader of the movement to unionize California farm workers. Chavez, too, said Gumaer, is Communist-influenced.

—The Communists bombed their own New York City headquarters during the 1966 disturbance to create sympathy for the New Left.

—At least 200 professors at the University of California, Berkeley, are Communists. New Left leaders also voiced the opinion that at least half of the College student body presidents and three-fourths of the college newspapers were under their control.

Gumaer said Communist leaders fear "most" of two organizations: the FBI, SSIAC, the Senate Internal Security Subcommittee, and the John Birch Society. He joined the Birch Society himself four years ago.

Gumaer also voiced approval of George Wallace as the only one of the three major presidential candidates "who said he would eliminate Communists from the government."

The danger from the organizations, he said, is that they are "too much in the making." Gumaer told his listeners, "Where do you see their threat? It is in the New Left movement. It will be a disaster. . . and they will be the country apart from the rest by causing a black versus white civil war."

Based on contact with friends still within the movement, Gumaer said new major protests are planned during the week of Oct. 21-27 and probably on Election Day also.

He was given a standing ovation both following his talk and the questions and answers period.

LEGITIMATE PROTEST OR — PLANNED SUBVERSION FROM THE CAMPUS?

David Emerson Gumaer, while working as an undercover operative for Police Intelligence, was assigned to infiltrate and report on the subversive activities of the so-called New Left movement in America. For two years he was a member of the Communist youth apparatus — the campus based W. E. B. DuBois Clubs.

Once accepted as a fellow revolutionary, Gumaer worked his way into high level national staff meetings of the Communist DuBois clubs, and in fact, worked for a time in their national office in Chicago. Having gained the confidence of DuBois leadership, he was directed by Police Intelligence to join several other left organizations, including the notorious S.D.S., Students For a Democratic Society.

Gumaer attended strategy meetings of the Trotskyite Communist Young Socialist Alliance, the youth arm of the Socialist Workers Party, and discussed revolution with the leader of the violent Revolutionary Action Movement (RAM). He was also a staff member of the Communist controlled National Conference For New Politics.

His investigation revealed an incredible plot to recruit America's campus youth in a subversive movement aimed at the ultimate violent overthrow of our government.

TACT Committees are organized in your community by concerned local citizens for the sole purpose of helping their neighbors understand the forces that are using our youth, our desire for peace, freedom of speech, and so-called civil rights, to pit one segment of our society against the other, in an organized effort to create civil turmoil leading to riots, destruction and lawlessness. We ask all individuals to join with us and, through education and understanding, help expose these forces that are turning American against American.

IS IT HAPPENING HERE?

The majority of America's youth are undoubtedly patriotic. Unfortunately, many young people in our nation are totally unaware of the extent to which they are being victimized and exploited.

David E. Gumaer, in cooperation with the F.B.I. and local police, risked his life to learn the truth about subversion on America's campuses.

While working as an undercover operative for the Intelligence Division of a major metropolitan Police Department, Dave Gumaer penetrated the policy-making meetings of such groups as:

(HPC)	Hyde Park Committee To End The War In Vietnam
(DBC)	W. E. B. DuBois Clubs of America
(SDS)	Students For A Democratic Society
(SSOHR)	South Shore Organization For Human Rights
(YSA)	Young Socialist Alliance
(NCAHUAC)	National Committee To Abolish The House Un-American Activities Committee
(SMC)	Student Mobilization Committee
(NCNP)	National Conference For New Politics
(CPC)	Chicago Peace Council

After sitting through many secret, behind-the-scenes planning sessions, where professional agitators of the New Left discussed their strategy for controlling campus demonstrations, Dave Gumaer learned exactly how marches and demonstrations and riots are being engineered. He will explain what the New Left has planned for this year's long, hot summer.

THE KU KLUX KLAN

"I WAS IN THE K.K.K. FOR THE F.B.I."

A man of rare courage and conviction, Reverend Delmar Dennis risks his life to bring you the true story of the Ku Klux Klan, an organization that vows to kill those who divulge its secrets.

The twenty-seven-year old former pastor of The First Southern Methodist Church in Meridian, Mississippi infiltrated the Klan at the specific request of the Federal Bureau of Investigation, in order to collect first-hand information for Chief J. Edgar Hoover's G-Men. In the recent trial involving the deaths of three "civil rights" workers in Mississippi, Reverend Dennis' testimony was instrumental in seven convictions for conspiracy to commit murder.

Reverend Dennis contends that the real significance behind the role of the Ku Klux Klan in America has not yet been revealed. He says, "There is still an important story that needs to be told. The Ku Klux Klan has become an important tool of Communist agitators who want to bring a race war to America. I know this from personal experience."

Reverend Dennis' extraordinary story is one you will not want to miss. TACT guarantees to provide you an evening full of revealing information you will never forget. You will also have a chance to meet in person the brave man who has defied death threats to bring you this important information.

A Bircher Who Bored In

A clean-cut, 29-year-old former illustrator last night peered over a rostrum and spent better than an hour telling an audience how the John Birch Society sees the troubled times.

Addressing some 80 people in the tiny auditorium of Arbonne School on 18th Avenue—the fog misting the windows outside—David E. Gumaer said:

• The turmoil on the Nation's college campuses is the work of "trained, full-time Communist agitators."

• So are the various anti-war movements.

• Also the civil rights movement.

• Senator Edward Kennedy and the late Robert F. Kennedy had an admitted communist lawyer working for them.

Gumaer, who spent two years infiltrating various organizations before he was

discovered, spoke before a meeting sponsored by TACT (Truth About Civil Turmoil), a Birch Society unit.

The crowd, mostly middle-aged to elderly, sat rapt and silent as Gumaer flourished pamphlet after pamphlet and bombarded them with the names of dozens of people he said were comrades, dupes and fellow travelers.

[REDACTED] of the Mobile Office, has received from relatives who live in Richmond, Calif. a pamphlet that advertises the fact that TRUTH ABOUT CIVIL TURMOIL (TACT) was presenting JULIA BROWN, a former FBI Undercover Operative speaking on "America Blackmailed By The Threat Of Violence". The article reads that BROWN, a Negro lady from Cleveland, Ohio, had joined the Communist Party, but after 9 months, she realized it was a conspiracy to destroy the country. She then contacted the FBI, which requested that she continue to work with the party as an undercover operative. For 9 years, JULIA BROWN risked her life supplying the government with vital information on communist activity, until she was "surfaced" to testify before a Congressional Committee in 1962. The meeting which she was to address was scheduled for 5/1/68 at 8:00 P.M. at the Veterans Memorial Hall, El Cerrito, Calif. (u)

It has recently been learned that JULIA BROWN is invited to speak at the Mobile Municipal Auditorium, Mobile, Ala. on 6/21/68, and she is sponsored by the Mobile County Local Law Enforcement Committee. Mrs. BROWN's topic for her talk is "Communism In The Civil Rights Movement" (u)

She cautioned to "be careful of the Democratic ticket because I don't see anything there and this (election) year is going to determine our destiny."

That and many other comments drew standing applause from the audience.

Mrs. Brown quit the Party after nine months when she realized the Communist Party is "a conspiracy trying to destroy my country." For nine years Julia Brown risked her life supplying the government with vital information on Communist activities until she was "surfaced" to testify before a Congressional Committee in 1962. CIVIL TURMOIL -

CAUSE AND CURE

The man who challenged Adam Clayton Powell in the recent special election, Rev. E. Freeman Yearling, not only knows and understands the civil rights problems but how to solve them. Reverend Yearling is the founder of the National Negro Congress of Racial Pride which lists among its objectives: "To expose and eradicate Communist activity throughout the United States, especially among ethnic minorities . . . To encourage the American Negro, through education, precept and example to become part of the American answer, not the American problem; and to this end, to encourage among American Negroes the realization that an honest day's work, in any honorable calling however humble, is among the noblest calling of any American. To encourage American Negroes to spurn the 'free' handouts of the welfare statists for what they really are: the crassest form of economic slavery, which can only lead the Negro on an ever downward spiral of misery and dependency."

Julia Brown, having been deceived into joining the Communist Party, remained for nine years as an undercover agent for the F.B.I. She states, "... unless we all begin acting like responsible Americans the Communists will use this phony 'civil rights' movement to seize our property, destroy our churches and enslave our families."

The editor of the Butler County American, a weekly newspaper in Hamilton, Ohio, is Alvin Smith, an outspoken pro-American. Mr. Smith has written, "In America, our first job is to stop and rout the Communists. Then all other problems, including racial problems, can be worked out in peace and freedom."

REV. E. FREEMAN YEARLING

**CIVIL TURMOIL -
CAUSE AND CURE**

The man who challenged Adam Clayton Powell in the recent special election, Rev. E. Freeman Yearling, not only knows and understands the civil rights problems but how to solve them. Reverend Yearling is the founder of the National Negro Congress of Racial Pride which lists among its objectives: "To expose and eradicate Communist activity throughout the United States, especially among ethnic minorities... To encourage the American Negro, through education, precept and example to become part of the American answer, not the American problem; and to this end, to encourage among American Negroes the realization that an honest day's work, in any honorable calling however humble, is among the noblest calling of any American. To encourage American Negroes to spurn the 'free' handouts of the welfare statists for what they really are: the crassest form of economic slavery, which can only lead the Negro on an ever downward spiral of misery and dependency."

These are strong words from a strong man. He has the guts to tell the truth! Will you listen?

IS THE "CIVIL RIGHTS" MOVEMENT DIRECTED FROM THE KREMLIN?

For the Answer HEAR

Major Pedro Diaz Lanz

Subject

Civil Turmoil From Havana To Watts

FORMER COMMANDER-IN-CHIEF
OF CASTRO'S AIR FORCE

Major Lanz is one of the most extraordinary men you will ever have the pleasure of hearing. He was one of the non-Communists who helped Castro build Communism in Cuba and participated in Castro's demonstrations shouting the battle cry of the Cuban Revolution, "We Shall Overcome." When he realized his mistake, Lanz resigned as Commander-in-Chief of Castro's Air Force and denounced Castro's revolution as Communist.

With his wife and children, Major Lanz avoided Castro's firing squad by escaping to the United States in a small sailboat. Once in the U.S., he tried to warn the government and the American people of the true nature of the Castro regime but the American mass media had sold Castro to the public as the George Washington of Cuba. Major Lanz was continuously denounced and vilified by the American press and government as an extremist malcontent after he testified before the Senate Internal Security Subcommittee revealing Castro's Communism.

Every concerned citizen owes it to himself to learn from Major Lanz the same tactics that were so eminently successful in Cuba are being repeated by the Communists in America today.

— PUT THE QUESTION to him whether and you will let Vietnam be the President Nguyen Van Thieu of the NLF in the collection of the National Government of the NLF, the Americans have the NLF can win this war, what do you think? He said in good words.

at 16:00.

"We believe that the interests of my state in that of war is comprised of a great number of factors of which the displacement of one are the political and racial ones. We have no basic superiority over the Americans on the political and moral front. Our square people wage the war, never a double battle and no difficulty of sacrifice, finally rejected never to lay down arms until we have achieved the aim of our struggle. We are stronger than the Americans in other inma-

and that is one of the things that is our strongest position, you see, across the continent of the year. Our national forces are not stronger than these. These are the things that decide the outcome of the battlefield. When they are strong, it is national and equipment, and therefore, be a concentrated weapon, politically, and militarily, strategically and tactically.

If only American power is not unlimited—perhaps—due to the events of commitments and their policy of world hegemony, the fact that they are waiting a war of aggression on our side thousands of miles from their own country, such inability to transport any part of our military into a stable base for the destruction of our enemies and the weaknesses that are fundamental and have been.

In the day-to-day course of the war, these decisions are very obvious; they increase day by day and will finally lead to the complete defeat.

active, vigorous, considerable body of officers which we have in one of our best regiments, the one the representatives of American soldiers who had done the 1918-19 duty at least, many of them on furlough but in position to do what we can expect of fighting and the most battle-hardened troops of this country. The 1st Massachusetts Cavalry and the 1st Rhode Island Cavalry are likely to retain the influence on the battlefield and the training on our part.

—We cannot afford to stand up to the new American imperialism and militarily defeat the American aggressors in any situation whatsoever. In fact, just as it is obviously true that the Americans cannot bring off a military victory in South Vietnam, it is also obvious to us that the South Vietnamese people and the

...organized in the national front of liberation, can bring off the final victory—despite U.S. military and economic strength."

AN EXTENSIVE DISCUSSION with Tho and his military advisers, it became clear that "final policy" had not emerged as a thing out of Americans on South Vietnamese soil or throwing all Americans into the sea, and less imposing a total military defeat on the U.S. It means that the MAF leadership is confident that it can smash every offensive the U.S. and its allies launch, that it can defeat every military and political maneuver, that it can impose heavy losses on enemy troops on a sharp, rising scale, that it can continue to extend and enlarge the territory and population under its control; that in the end the U.S. will find that there is no alternative but to pack up and go home.

"When we speak of final victory, that means an independent and sovereign South Vietnam demonstrated and achieved, without any foreign troops on our soil," said NLF staff officer Duong Ho. "We are not seeking to impose a military defeat on the U.S. as such as the Americans withdrew and want to pull it. They will victory—they can do so. We won't even argue about who won, but Victor, who was defeated. Our representatives down and sovereignty are prize enough. For them we continue to fight till the end, and we will win."

In this time of moral and civil turmoil it is the responsibility of all Americans to support those institutions which have sustained our free country. Do you agree with J. Edgar Hoover that growing civil turmoil is a number one threat to the peace and safety of America? Do you recognize the long-range implications in the term "civil disobedience"? If you do, you may be interested in knowing about the Millbrae - Burlingame - Hillsborough TACT Committee.

TACT has been formed by a group of your neighbors and friends who are working together for a better understanding of the real causes and purposes behind the growing wave of turmoil now sweeping our country. During the months to come the Millbrae - Burlingame - Hillsborough TACT Committee will sponsor speakers who are nationally recognized authorities on the increasing problem of disrespect for law and order: riots, campus demonstrations, and other developments we hear and read about daily. TACT hopes that by providing educational lectures, films, books and other printed material from knowledgeable sources a better understanding can be created in the community of the underlying causes for these problems. The Committee agrees with J. Edgar Hoover, who stated:

"We are not going to stand by while celebrity status is accorded those sick minds and corrupt souls who tamper with and ridicule our orderly process of government under law. We must choose between law and anarchy—freedom or chaos."

Our Beliefs and Principles are:

1. All citizens face extreme danger from civil turmoil and the resulting anarchy in cities of our country. Many citizens do not know that a subversive force is hard at work to use unsuspecting Americans to foment turmoil.
2. Much hatred is being deliberately fomented and is actually resulting from civil turmoil, and will make it harder rather than easier to arrive at equitable solutions to problems that always face a free people.
3. The cure for civil turmoil is a better understanding of the underlying causes and a greater respect for law and order.
4. We welcome as members all citizens who are sincerely interested in retaining law and order, and in stressing legal methods of redressing grievances, thereby improving mutual good will and understanding among all loyal Americans.

The work TACT is doing needs you and every interested citizen. A form is enclosed which offers you the opportunity to share this undertaking. Your comments and suggestions will be sincerely appreciated.

America's Time Bomb?

COMMUNIST GAINS AMONG YOUTHS —J. EDGAR HOOVER REPORTS

How Communists have penetrated American youth movements—in colleges, civil-rights organizations, antiwar drives and other areas—is described by J. Edgar Hoover, the Director of the Federal Bureau of Investigation, in an FBI report that was released on October 19.

Mr. Hoover's findings throw additional light on recent riots, campus disorders and other developments in America. What follows is an excerpt from his report.

An optimistic Communist Party, U.S.A., moved into more open activities during the 1965 fiscal year [12 months ending June 30] in its efforts to gain new influence and promote its programs.

It pressed with renewed vigor in all areas of its operations, giving special attention to slashing attacks on American foreign policy, the infiltration of the civil-rights movement, and youth recruitment.

Although the party loudly proclaims its independence of foreign control, its every action tends this façade to show clearly that it owes allegiance only to the Soviet Union, and is absolutely committed to the world Communist movement.

Ample evidence of this was the reaction of party leaders to the June 22, 1964, decision of the United States Supreme Court declaring unconstitutional the passport section of the Internal Security Act of 1950, which prohibited any member of the Communist Party, U.S.A., from applying for, using or attempting to use a United States passport.

As soon as passports became available to them under this ruling, many party functionaries traveled to the Soviet Union, where they were feted, shown much favor, and indoctrinated for new assaults against their homeland.

The Communist Party's traditional opposition to any facet of American foreign policy which serves to impede international Communism reached new levels of invective with all-

out attacks on this country's commitments in Vietnam and the Dominican Republic.

Denouncing U.S. action in South Vietnam as "brutal" and "barbarous," the party has instructed its members to co-operate with all protest groups, in order to intensify these activities and weaken the Government's position. The party is making a concerted effort to exploit to its advantage the various demonstrations against American involvement in Vietnam and the Dominican Republic.

The Communists have been much encouraged by the current wave of social unrest in the United States. They view this situation as the development of a climate favorable to their operations and are constantly probing to exploit areas of discord. It is a rare civil-rights activity, whether it be a voters' registration drive, a demonstration, march or picket, that does not attract Communists to some degree.

A striking example of this was seen in the riots which erupted in the Harlem area of New York City in July, 1964. The Progressive Labor Movement—since renamed the Progressive Labor Party—a dissident and highly militant splinter group of the Communist Party, U.S.A., was involved in prolonging these demonstrations by deliberate incitement of the rioters. Representatives of this group distributed provocative literature and delivered inflammatory street-corner harangues, which increased the tension in the riot area to a marked degree.

In general, legitimate civil-rights organizations have been successful in excluding Communists, although a few have received covert counseling from them and have even accepted them as members.

The Communist Party is not satisfied with this situation and is continually striving to infiltrate the civil-rights movement at every level.

The FBI does not investigate the legitimate activities of civil-rights groups, but from an intelligence standpoint it is concerned with determining the extent of any possible Communist infiltration.

The 1964-65 school year was a busy time for Communist leaders in all areas of the country, as the party intensified its efforts to attract young people through public appearances on college and university campuses.

Party leaders, encouraged by earlier successes, spoke to more than 37,000 students in 56 appearances during this period. This concentration on college campuses was aimed at gaining acceptance for the party as a legitimate political activity, creating an aura of respectability and understanding for the party and spreading Communist propaganda. Communist Party leaders also appeared as guests on numerous radio and television programs.

Another major weapon which the Communist Party is directing against young people is the W. E. B. DuBois Clubs of America. This party-oriented youth organization, founded in June, 1964, at a convention in San Francisco, Calif., which was dominated and controlled by Communists, has as its basic aim the promotion of Marxism-Leninism. The Marxists believe that these clubs, which are centered on college campuses, have great promise in reaching youth. [END]

"Why I Became a Communist for the F.B.I."

FOLLOWED BY A QUESTION AND ANSWER PERIOD

Lola Holmes, a negro, devoted seven years of her life to working within the Communist Party for the F.B.I. While in the Communist Party, Miss Holmes carried out Moscow orders to gain control of the "civil rights" movement and to use it as the torch to light a fire of revolution in America.

Her energy and ability quickly propelled her into top leadership positions in the Party where she served as a national officer for the Negro Commission of the Communist Party. Lola Holmes left the Party in 1963 to testify before the Subversive Activities Control Board against Claude Lightfoot, Chairman of the Communist Party in Illinois.

Learn why this patriotic woman, who has already given seven years of her life to exposing communism for the F.B.I. is now working night and day warning her fellow Americans of the holocaust that awaits them if they do not learn of communist plans for victory in America through civil turmoil.

In her speech, Lola Holmes describes her role in creating the famous March on Washington in 1963 and the key part played by the Communists in its inception. The individual put in charge of organizing the March was Bayard Rustin who has a long record of communist activities.

Washington march

Leadership for the March on Washington was put into the experienced hands of A. Phillip Randolph and Bayard Rustin. Randolph, a former Socialist Party Candidate for political office, has been a member of 20 Communist front organizations according to official government records. Rustin was an organizer for the Young Communist League, served 26 months in a Federal penitentiary for draft evasion, attended the Communist Party's national convention in 1958 while he was Martin Luther King's secretary and pleaded guilty to a homo sexuality charge in Pasadena, California.
